The most anticipated fantasy RPG of the 2020. Made by “Amitheos”, the creator of “ArcaniA”, “Highway Star” and “MercurySteam’s The Surge”. Releasing information at a time when everyone was waiting for a new update on Kimi no Kuni, I was so thankful to be able to finally bring my excitement into real life. All of these years, I have lived with the hope of seeing my new project in people’s eyes, and that day finally came to me. Personally, I have always asked myself “will I be able to create a work that makes me feel new emotions?”. However, it would seem that the core of my own fears has been put to rest. I’m extremely satisfied. Releasing to the public at the Tokyo Game Show was no ordinary mission. I’ve completed the game in just one year, and that seems like it took me over half my life. Especially for you, the fans of Kimi no Kuni, this is the best ever release. Seeing how you’ve still been waiting a long time for the release of Kimi no Kuni, I am extremely happy and grateful that we are able to offer you another RPG, even if it is just for a limited period of time. I am so grateful for the fans who have supported me every day. I will now go to another world and prepare for KOFACt’s new game. Sincere thanks, to all the staff who have worked hard on the game. I am sure you will also never forget the events of today. This world is about to emerge from your imagination. - Yamamoto Design & Direction -Programming: A Tale of Creation -Animation: Shisuno Rintaro -Game Design: AAR. -Background Music: Daisuke Isogai -Composer: Masaki Kubota (Dragons of Summer) -Cinematics: Imakamura/Castle -Additional Cinematics: Kasama/Agoras -Characters (Character Design & Animation) -Voice: Asami Imai/Seki/Siposu/

Food Is People If an issue didn’t carry with it an electorate, it wouldn’t be an issue. I doubt if anyone would vote for someone who hadn’t given a thought to the issue much less voted on it. These are people for whom the very physical and mental aspects of food and farming will be found and experienced. As we see how we have ignored the issue of food, we are seeing where farm environments have failed and how we have failed our children in so doing. Pascal Metherel has written a novel. He has created a medium, a multiplicity of media, a vehicle for accessing how humans respond to something they saw in a movie five years after it first played. Too many books, papers and essays are written by people too busy writing. Metherel has written a book. He wants the reader to read. He has a voice. Hers is a voice that has an education, a vision and passion. His voice is that of the everyday farmer. “La Gueuserie,” his book, is in French, his adopted language. It was first published in 2010 and was nominated for the Prix du meilleur livre FCA. It could still qualify for that illustrious honor, but French criticism is not what Metherel has in mind. “How big is our world?” Metherel asks. “How much do

However, the theme of the series has always been about bravery and heroism. In the first Dragon Quest, the hero’s life story was about saving the princess. After that, it gradually became about fighting the evil of the world, such as the calamity that occurred in the world of Trenia. With Dragon Quest XI, we’ve made the main character a woman. We also wanted to make the series more diverse and lively, and we’ve done that by setting it in a world where rules and customs are established. I thought that, if there were a way to make the main character a woman, it would be ideal to make her a female protagonist. However, we didn’t know what direction to take. We decided to make it a fantasy world with beautiful women. I’ve been saying that if there’s a world where you can make the main character a woman, we should create that world. WHAT’S THE BACKGROUND OF DRAGON QUEST XI SAGA? RPGs have been something that has traditionally been enjoyed by people of all ages. The reason for that is the fact that RPG games have a “relaxed pace” that doesn’t get on people’s nerves, and they have a sense of “reward” that doesn’t get stuck in people’s memories. However, because of the continued increase in the number of sophisticated RPGs that have been released in recent years, it’s become difficult for younger people to find something that they can enjoy. That’s why we thought that, if we had a chance to create our own game where you’
